Board Members' Report

The Board Members submit the financial report of the Darwin Community Legal Service Inc. for the financial year ended 30 June 2022.

Board Members

The names of Committee Members throughout the year and at the date of this report are:

Julie Davis Chairperson Peggy Cheong Secretary / Public Officer Kimmy Jongue Director / Treasurer Julie Hansen Director Alastair Shields Director Clarissa Phillips Director Lucy Markoff Director Tom Korecki Director Hugh Bond Director

Myles Brown Director (resigned on 22/11/2021)

Board Member have been in office since the start of the financial year to the date of this report unless otherwise stated.

Principal Activities

The principal activities of Darwin Community Legal Service Inc. (the "Association") during the financial year were to provide free legal and advocacy services to disadvantaged and marginalised people in and around the top end of Northern Territory.

Significant Changes

No significant change in the nature of these activities occurred during the financial year.

Operating Result

The Association's operating surplus for the financial year amounted to \$25,367 (2021: surplus of \$289,521).

Events After the Reporting Period

There are no matters or circumstances which have arisen since 30 June 2022 that have significantly affected, or may significantly affect the Association's operations, the results of those operations, or the Association's state of affairs in future financial years.

Julie Davis , Chairperson

Kimmy Jongue , Treasurer

Dated this day of October 2022

Note 1 Summary of Significant Accounting Policies

Financial Reporting Framework

The Committee Members have prepared the financial statements on the basis that the Association is a non-reporting entity because there are no users dependent on general purpose financial statements. These financial statements are therefore special purpose financial statements that have been prepared in order to meet the reporting requirements of the Northern Territory of Australia Association Act 2003 and the Australian Charities and Not for Profits Commission Act 2012. The Committee Members have determined that the Association is not a reporting entity. The Association is a not-for-profit entity for financial reporting purposes under Australian Accounting Standards.

The financial statements have been prepared in accordance with the mandatory Australian Accounting Standards applicable to entities reporting under the Australian Charities and Not for Profits Commission Act 2012 and the significant accounting policies disclosed below, which the Committee Members have determined are appropriate to meet the needs of Members. Such accounting policies are consistent with those of previous periods unless stated otherwise.

The financial statements were authorised for issue on October 2022 by the Committee Members of the Association.

Statement of Compliance

The financial statements have been prepared in accordance with the Northern Territory of Australia Association Act 2003 and with the mandatory Australian Accounting Standards applicable to entities reporting under the Australian Charities and Not for Profits Commission Act 2012, the basis of accounting specified by all Australian Accounting Standards and Interpretations, and the disclosure requirements of Accounting Standards AASB 101: Presentation of Financial Statements, AASB107: Cash Flow Statements, AASB 108: Accounting Policies, Changes in Accounting Estimates and Errors, AASB 1031: Materiality and AASB 1054: Australian Additional Disclosures; as appropriate for Not-for-Profit oriented entities.

The Association has concluded that the requirements set out in AASB 10 and AASB 128 are not applicable as the Association does not have any subsidiaries, associates or joint ventures. Hence the financial statements comply with all the recognition and measurement requirements in Australian Accounting Standards.

Basis of Preparation

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs, unless otherwise stated in the notes. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless otherwise stated. The amounts presented in the financial statements have been rounded to the nearest dollar.

Accounting Policies

a) Revenue and Other Income

Operating Grants, Donations and Bequests

When the Association receives operating grant revenue, donations or bequests, it assesses whether the contract is enforceable and has sufficiently specific performance obligations in accordance with AASB 15.

When both these conditions are satisfied, the Association:

- identifies each performance obligation relating to the grant;
- recognises a contract liability for its obligations under the agreement; and
- recognises revenue as it satisfies its performance obligations.

When the contract is not enforceable or does not have sufficiently specific performance obligations, the Association:

- recognises the asset received in accordance with the recognition requirements of other applicable accounting standards (AASB 9, AASB 16, AASB 116 and AASB138);
- recognises related amounts (being contributions by owners, lease liability, financial instruments, provisions, revenue or contract liability arising from a contract with a customer); and
- recognises income immediately in profit or loss as the difference between the initial carrying amount of the asset and the related amount.

If a contract liability is recognised as a related amount above, the Association recognises income in profit or loss when or as it satisfies its obligations under the contract.

Note 1 Summary of Significant Accounting Policies (Cont.)

(a) Revenue and Other Income (Cont.)

Interest Income

Interest income is recognised using the effective interest method.

(b) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated, less, where applicable, accumulated depreciation and any impairment losses.

Leasehold improvements

Leasehold improvements are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any impairment losses.

Plant and Equipment

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses.

The carrying amount of leasehold improvements and plant and equipment are reviewed annually by Committee Members to ensure they are not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets' employment and subsequent disposal.

In the event the carrying amount of leasehold improvements and plant and equipment is greater than their estimated recoverable amount, the carrying amount is written down immediately to their estimated recoverable amount and impairment losses are recognised in profit or loss. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 1(e) for details of impairment).

Plant and equipment that have been contributed at no cost, or for nominal cost, are valued and recognised at the fair value of the asset at the date it is acquired.

Depreciation

The depreciable amount of all fixed assets, including buildings and capitalised lease assets, is depreciated on a straight-line basis over the asset's useful life to the Association commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate Life (years)
Leasehold improvements	10%
Plant and equipment	15-30%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are recognised in profit or loss in the period in which they arise. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

Note 1 Summary of Significant Accounting Policies (Cont.)

(c) Leases

The Association as Lessee

At inception of a contract, the Association assess if the contract contains or is a lease. If there is a lease present, a right-of-use asset and a corresponding lease liability is recognised by the Association where the Association is a lessee. However all contracts that are classified as short term leases (lease with remaining lease term of 12 months or less) and leases of low value assets are recognised as an operating lease on a straight-line basis over the term of the lease.

Initially the lease liability is measured at the present value of the lease payments still to be paid at commencement date. The lease payments are discounted at the interest rate implicit in the lease. If this rate cannot be readily determined, the Association uses the incremental borrowing rate.

Lease payments included in the measurement of the lease liability are as follows:

- fixed lease payments less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options;
- lease payments under extension options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The right-of-use assets comprise the initial measurement of the corresponding lease liability as mentioned above, any lease payments made at or before the commencement date as well as any initial direct costs. The subsequent measurement of the right-of-use assets is at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset whichever is the shortest. Where a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Association anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

Concessionary Leases

For leases that have significantly below market terms and conditions principally to enable the Association to further its objectives (commonly known as peppercorn / concessionary leases), the Association has adopted the temporary relief under AASB 2018-8 and measures the right of use assets at cost on initial recognition.

(d) Financial Instruments

Initial Recognition and Measurement

Financial assets and financial liabilities are recognised when the Association becomes a party to the contractual provisions to the instrument. For financial assets, this is the date that the Association commits itself to either the purchase or sale of the asset (ie trade date accounting is adopted).

Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Trade receivables are initially measured at the transaction price if the trade receivables do not contain significant financing component or if the practical expedient was applied as specified in paragraph 63 of AASB 15: Revenue from Contracts with Customers.

Note 1 Summary of Significant Accounting Policies (Cont.)

(d) Financial Instruments (Cont.)

Classification and Subsequent Measurement

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is used to allocate interest income or interest expense over the relevant period. The effective interest rate is the internal rate of return of the financial asset or liability. That is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

Any gains or losses arising on changes in fair value are recognised in profit or loss.

Financial assets

Financial assets are subsequently measured at: amortised cost; fair value through other comprehensive income; or fair value through profit or loss.

Measurement is on the basis of two primary criteria: the contractual cash flow characteristics of the financial asset; and the business model for managing the financial assets.

A financial asset that meets the following conditions is subsequently measured at amortised cost: the financial asset is managed solely to collect contractual cash flows; and the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates.

By default, all other financial assets that do not meet the measurement conditions of amortised cost and fair value through other comprehensive income are subsequently measured at fair value through profit or loss.

The initial designation of financial instruments to measure at fair value through profit or loss is a one-time option on initial classification and is irrevocable until the financial asset is derecognised.

Note 1 Summary of Significant Accounting Policies (Cont.)

(d) Financial Instruments (Cont.)

Derecognition

Derecognition refers to the removal of a previously recognised financial asset or financial liability from the statement of financial position.

Derecognition of financial liabilities

A liability is derecognised when it is extinguished (ie when the obligation in the contract is discharged, cancelled or expires). An exchange of an existing financial liability for a new one with substantially modified terms, or a substantial modification to the terms of a financial liability, is treated as an extinguishment of the existing liability and recognition of a new financial liability.

The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Derecognition of financial assets

A financial asset is derecognised when the holder's contractual rights to its cash flows expires, or the asset is transferred in such a way that all the risks and rewards of ownership are substantially transferred.

All the following criteria need to be satisfied for the derecognition of a financial asset: the right to receive cash flows from the asset has expired or been transferred; all risk and rewards of ownership of the asset have been substantially transferred; and the Association no longer controls the asset (ie has no practical ability to make unilateral decision to sell the asset to a third party).

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Impairment

The Association recognises a loss allowance for expected credit losses on :

- financial assets that are measured at amortised cost or fair value through other comprehensive income;
- lease receivables; and
- contract assets (eg amount due from customers under contracts).

Expected credit losses are the probability- weighted estimate of credit losses over the expected life of a financial instrument. A credit loss is the difference between all contractual cash flows that are due and all cash flows expected to be received, all discounted at the original effective interest rate of the financial instrument.

The Association uses the following approach to impairment, as applicable under AASB 9: Financial Instruments:

- the simplified approach.

Simplified Approach

The simplified approach does not require tracking of changes in credit risk at every reporting period, but instead requires the recognitionThe simplified approach does not require tracking of changes in credit risk at every reporting period, but instead requires the recognition of lifetime expected credit loss at all times.

The approach is applicable to :

- trade receivables; and
- lease receivables.

Recognition of Expected Credit Losses in Financial Statements

At each reporting date, the Association recognises the movement in the loss allowance as an impairment gain or loss in the statement of profit or loss and other comprehensive income.

The carrying amount of financial assets measured at amortised cost includes the loss allowance relating to that asset.

Note 1 Summary of Significant Accounting Policies (Cont.)

(e) Impairment of Assets

At the end of each reporting period, the Association reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, is compared to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss

Where the future economic benefits of the assets are not primarily dependent upon the asset's ability to generate net cash inflows and when the Association would, if deprived of the asset, replace its remaining future economic benefits, value in use is determined as the depreciated replacement cost of an asset.

Where it is not possible to estimate the recoverable amount of an individual asset, the Association estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Where an impairment loss on a revalued individual asset is identified, this is recognised (debited) against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that class of asset.

(f) Employee Benefits

Short-term employee benefits

Provision is made for the Association's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries, annual leave and superannuation. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Association's obligations for short-term employee benefits such as wages, salaries and superannuation are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

The Association classifies employees' long service leave and annual leave entitlements as other long-term employee benefits as they are not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Provision is made for the Association's obligation for other long-term employee benefits.

The Association's obligations for long-term employee benefits are presented as non-current liabilities in its statement of financial position, except where the Association does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current liabilities.

The Association's policy is to provide for long service leave when employees reach 5 years of continuous employment.

Retirement benefit obligations

Defined contribution superannuation benefits

Contributions are made by the Association to employees superannuation funds and are charged as expenses when incurred.

(a) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at-call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short-term borrowings in current liabilities on the statement of financial position.

(h) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Summary of Significant Accounting Policies (Cont.) Note 1

Goods and Services Tax (GST) (cont) (h)

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

Income Tax

No provision for income tax has been raised as the Association is exempt from income tax under Div. 50 of the Income Tax Assessment Act 1997

Provisions

Provisions are recognised when the Association has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured. Provisions recognised represent the best estimate of the amounts required to settle the obligation at the end of reporting period.

Comparative Figures (k)

Where required by Accounting Standards comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Trade and Other Receivables (1)

Trade and other receivables include amounts due from clients for fees and services provided, from donors and any outstanding grant receipts. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Refer to Note 1(d) for further discussion on the determination of impairment losses.

Contract Assets

Contract assets are recognised when the Association has transferred goods or services to the customer and or completed required performance obligations, but has yet to establish unconditional rights to consideration. Contract assets are treated as financial assets for impairment purposes.

Trade and Other Payables (n)

Trade and other payables represent the liabilities for goods and services received by the Association during the reporting period that remain unpaid at the end of the reporting period. Trade payables are recognised at their transaction price. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

(o) **Contract Liabilities**

Contract liabilities represent the Association's obligation to transfer goods or services to a customer or complete required performance obligations and are recognised when a customer pays consideration, or when the Association recognises a receivable to reflect its unconditional right to consideration (whichever is earlier), before the Association has transferred the goods or services to the customer and or completed required performance obligations.

Note 1 Summary of Significant Accounting Policies (Cont.)

(q) Critical Accounting Estimates and Judgements

The Committee Members evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Association.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Key estimates

(i) Impairment- General

The Association assesses impairment at the end of each reporting period by evaluating conditions and events specific to the Association that may be indicative of impairment triggers.

Impairment of leasehold improvements and plant and equipment

The Association assesses impairment of leasehold improvements and plant and equipment at each reporting date by evaluating conditions specific to the Association and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs to sell or value-in-use calculations, which incorporate a number of key estimates and assumptions. There was no provision for impairment of leasehold improvements and plant and equipment at 30 June 2022 (2021: \$Nii).

(ii) Useful lives of property, plant and equipment

The Association reviews the estimated useful lives of leasehold improvements and plant and equipment at the end of each reporting period, based on the expected utility of the assets.

The Association determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Key judgments

(i) Performance Obligations Under AASB 15

To identify a performance obligation under AASB 15, the promise must be sufficiently specific to be able to determine when the obligation is satisfied. Management exercises judgement to determine whether the promise is sufficiently by taking into account any conditions specified in the arrangement, explicit or implicit, regarding the promised services. In making this assessment, management includes the nature / type, cost /value, quantity and the period of transfer related to the services promised.

(ii) Lease Term and Option to Extend under AASB 16

The lease term is defined as the non-cancellable period of a lease together with both periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option; and also periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option. The options that are reasonably going to be exercised is a key management judgement that the Association will make. The Association determines the likeliness to exercise the options on a lease-by lease basis looking at various factors such as which assets are strategic and which are key to future strategy of the entity.

(r) Economic Dependence

The Association is dependent on Commonwealth and NT Government grants for the majority of its revenue to operate its programs and business. At the date of this report, the Committee Members have no reason to believe that the above governments will not continue to support the Association. The operations and future success of the Association is dependent upon the continued support and funding by the government bodies, its members and donors and the achievement of operating surpluses and positive operating cash flows.

(s) New and Amended Accounting Standards and Policies Adopted By The Association

There were no new Accounting Standards or Interpretations issued by the Australian Accounting Standards Board (AASB) which were mandatory for the current reporting period that were applicable to the Association.

Total Right of Use Assets	<u>-</u>	167,878	226,026

The Association's lease portfolio includes buildings and motor vehicles. The buildings have an average of 10 years and expire on 31st August 2025. The incremental borrowing rate used by the Association is 4.66%, with montly lease payments of \$6,100. The motor vehicles have an average of 3 years as their lease term. The option to extend or terminate are contained in property leases of the Association. There were no extension options for motor vehicles. These clauses provide the Association the opportunities to manage leases in order to align with its strategies.

NOTES TO THE FINANCIAL REPORT FOR THE YEAR ENDED 30 JUNE 2022

Note 12 Employee Provisions (Cont.)

Provision For Employee Benefits

Employee provisions represents amounts accrued for annual leave and long service leave.

The current portion for this provision includes the total amount accrued for annual leave entitlements and the amount accrued for long service leave entitlements that have vested due to employees having completed the required period of service. Based on past experience, the Association does not expect the full amount of annual leave or long service leave balances classified as current liabilities to be settled within the next 12 months. However, these amounts must be classified as current liabilities since the Association does not have an unconditional right to defer the settlement of these amounts in the event employees wish to use their leave entitlement.

The non-current portion for this provision includes amounts accrued for long service leave entitlements that have not yet vested in relation to those employees who have not yet completed the required period of service.

In calculating the present value of future cash flows in respect of long service leave, the probability of long service leave being taken is based upon historical data. The measurement and recognition criteria for employee benefits have been discussed in Note 1(f).

Note 20 Association Details

The Principal place of business is:

75 Woods Street, Darwin City NT 0800

DARWIN COMMUNITY LEGAL SERVICE INC. ABN: 42 840 626 724 DECLARATION BY COMMITTEE MEMBERS FOR THE YEAR ENDED 30 JUNE 2022

The Committee Members have determined that the Association is not a reporting entity and that this special purpose financial report is prepared in accordance with the accounting policies stated in note 1 to the financial statements.

The Committee Members declare that the financial statements as set out on page 3 to 22 are in accordance with the requirements of the Northern Territory of Australia Association Act 2003 and with the Australian Charities and Not for Profits Commission Act 2012 and:

- 1 Comply with Australian Accounting Standards as described in note 1 to the financial statements;
- 2 Give a true and fair view of the financial position of the Darwin Community Legal Service Inc. as at 30 June 2022, its performance and cash flows for the year ended on that date; and
- 3 At the date of this statement, there are reasonable grounds to believe that the Association will be able to pay its debts as and when they fall due.

This declaration is made in accordance with a resolution of the Committee Members and is signed for and on behalf of the Committee Members by:

Julie Davis , Chairpers	son
